

Latex Exam Gloves Powder Free, Standard Cuff

COATS® (colloidal oatmeal system) is a patented and unique latex glove technology, which contains an FDA recognised skin protectant. These utilise the powerful benefits of all-natural oats as a coating that forms a natural, moisturising barrier between the glove and skin. This acts as a preventative measure against skin irritation and hydration dermatitis. Therefore, users who suffer from dry and itchy skin can now use GloveOn® COATS® to protect their hands while they work.

Innova

Latex Exam Gloves Powder Free, Standard Cuff

GloveOn® Innova is our light weight powder free latex glove, with a unique fully textured surface for better grip in both wet and dry environments. These versatile gloves come with high tensile strength and superb barrier protection properties, which are suitable for any demanding task in any market segment.
